## SUMMARY

Fullstack developer and Team Lead with expertise in backend and frontend technologies.

## TECHNICAL SKILLS

- **Backend** - Node.js, Express.js, Nest.js, Typescript, GraphQL, Microservices
- **Database** - MongoDB, MySQL
- **Frontend** - Nextjs, Reactjs, Tailwind
- **DevOps** - AWS deployment, GitHub actions
- **Testing** - Jmeter

## Experience

### Fullstack Developer & Team Lead - Rebuild Technology Pvt. Ltd. | June 2024 - Present

- Development of backend applications based on microservices architecture.
- Mentored team for 2-3 projects ensuring smooth and productive work environment.
- Contributed to frontend development using Nextjs

### Backend Developer - Zimble Code Software Solutions Pvt. Ltd. | November 2023 - May 2024

- Worked on various **e-commerce applications** and engineered new features like guest user flow, digital wallet, dynamic email and payout functionality.
- Integration of payment gateways like **Stripe, PayStack, Razorpay, and PayU** on many applications

### Software Associate - DITS Innovations, Chandigarh | April 2022 - October 2023

- Engineering the full backend of **IOT-based applications** in **Nestjs and MongoDB** with real-time data fetching features, dynamic email notifications, Efficient database designing, and high-quality documentation for clients.
- Optimization of the applications by implementing best coding practices and improvement in server performance by 30%. Created the performance reports with the help of **Jmeter**.

### Training - DITS Innovations, Chandigarh | August 2021 - March 2022

- Learned about HTML, CSS, and Javascript.
- Learned about Node.js, and Nest.js with MongoDB.
- Worked as a backend support developer and engineered APIs on **the Nest.js framework** with MongoDB in an **IOT-based application**.

## Projects

### Car Rental (Full-Stack Development)

# Lovely

**Mobile** - +91-8146951788 | **Email** - [lovely.work1313@gmail.com](mailto:lovely.work1313@gmail.com) | **Twitter** - <https://x.com/mrlovely1928>

**Linkedin** - <https://www.linkedin.com/in/mr-lovely-3179a8190/>

- Built a **SaaS-based vehicle rental platform** using a **microservices architecture**.
- Led the team and contributed to the **Next.js** frontend.
- Integrated **Xendit** for payments, **M360** for SMS, and **Mailchimp** for email automation.

## Partyra

- Worked on an **event-based application** as a backend developer.
- Integrated **Stripe** and **Paystack** for seamless payments.
- Implemented **Twilio** for SMS notifications.
- Designed a **guest user flow** and **dynamic payout** system.

## Quicklyn

- Contributed to the development and continuous improvements of this **service-based app**.

## Daarlo (*E-commerce Platform*)

- Built the **backend from scratch**, handling both **admin panel** and **customer APIs**.
- Integrated **Razorpay** and **PayU** for payments.
- Implemented an **E-wallet system** for seamless transactions.

## Payment Gateway Application

- Designed and developed a **microservices-based** system for managing multiple payment gateways.
- Led the backend team and implemented **Buzz SMS Gateway** for notifications.

## SaaS-Based E-commerce Platform

- Developed and led a **microservices-based** e-commerce platform.
- Implemented a flexible **product and variant management system** for admins.

## Alarm Application

- Developed the backend using **NestJS**.
- Integrated real-time **IoT device data fetching**.
- Implemented **advanced MongoDB aggregations** for efficient data processing.
- Configured **SendGrid** for email notifications.

# Education

- **BBSBEC, Fatehgarh Sahib** - *B.Tech* (73.4%) - (2015-2019)
- **CBSE** - *12TH* (82.2%) - (2015)
- **PSEB** - *10TH* (89.2%) - (2013)
